

IV. Prototype overview

Overview of OfficeMentor

OfficeMentor is a platform designed to help workers mentor and communicate remotely while still maintaining the feel of collaborating in-person. OfficeMentor will feature a sleek and simple user experience by allowing users to easily navigate the interface. OfficeMentor includes features like video, screen, and document sharing, being able to access such resources reliably, the ability to schedule events, the integration of different training aspects, document filing and the ability to retain knowledge across the organization.
